

Uploading photos from image library (iPhone)

Follow the steps below to ensure that iPhone users are able to upload images from the library to Survey123 Apps.

1. First, navigate to the Settings app on your iPhone device.
2. Scroll down until you see the Survey123 App and click it.
3. Click Photos.
4. If 'All Photos' is NOT ticked, then tick this option and this will allow you to upload an image to the Survey123 App from the iPhones image library.

As a check, the image you have selected to upload will appear on the app, as illustrated on the left. If there is not an image there after uploading it, then complete the steps above or contact FMS if the issue remains.
